

"Happiness is the highest form of health." "The four keys to good health: a working digestive system, an alkaline body, low stress, and a joyful state of being." "A good laugh and a long sleep are the best cures in the doctor's book." "A healthy lifestyle is the most potent medicine at your disposal."

Plant-Based Omega-3s Reduce Risk Of Heart Disease, Study Finds

Omega 3 fats are a group of unsaturated fats that are important for heart health. Non-vegans get it from oily fish such as sardines, salmon, and mackerel.

But new research has found that plant-based omega-3 fatty acids are also equally beneficial to heart health and can reduce the risk of heart disease for people who don't eat seafood.

Research published in Advances in Nutrition and reported on by Science Direct, found that consuming alpha-linolenic acid (ALA), which can be found in foods like walnuts and flaxseeds was associated with a 10 percent lower risk of cardiovascular disease and a 20 percent reduced risk of fatal coronary heart disease - [Read More](#)

Why do I get heart palpitations after I eat?

Written by Mary West on March 29, 2022

Heart palpitations after eating could be due to a range of causes. Specific foods and drinks are often responsible. Learn more about causes and treatment here.

COVID vaccines go head-to-head

A rare apples-to-apples comparison suggests that the Pfizer–BioNTech and Moderna COVID-19 vaccines outperform those from Johnson & Johnson and Novavax. The data, which have not yet been peer-reviewed, provide a [finely detailed picture of the immune response to each vaccine](#) — which could be useful for designing future vaccines. “This is not meant to proclaim winners and losers,” says immunologist and study co-author Alessandro Sette. It’s just “a comprehensive evaluation of the different variables”.

New hope on the long road to treating MS

Evidence suggesting a link between multiple sclerosis (MS) and the Epstein–Barr virus (EBV) raises [the tantalizing prospect of antivirals and vaccines that could treat or prevent the condition](#). It could take decades before an EBV-directed intervention proves to be a way to stave off MS. But interest is high, even beyond the MS community, because the spectre of long COVID has focused attention on the roots of post-viral diseases. Key will be the painstakingly collected biological samples stored in large biobanks, such as the one maintained by the US Department of Defense, which fuelled recent discoveries.

How To Make Herbed Turnip-Rutabaga Flatbread

PATRIOTISM - IS IT FACT OR FICTION?

What a Wonderful World we live in!
What Wonderful Lands we lived in!
What Wonderful Principles built therein
What Wonderful Indoctrinations that are driven in

Patriotism is just a Double-Edged Principle
Politically Complicated & Confusing; though a word so Simple
In bringing out the Best in a person; to Kindle Love & set an Example
Placing Country before self and reaching the Pinnacle

A Tool in the hands of the Politicians & Powers that wish to Remain in
At the Cost of Misled Pawns that lie therein
At the Mercy of those adapt at Manipulating
Often Indulging in Misdeed ; and oft Misleading

Patriotism has many an Obstacle
Primarily it is a Tool for the Majority who Rule
Using the Minority; with their Patriotic Rhetoric as a mere Tool
Just to made use of and Rid of; looking a mere Fool

Politicians thrive therein
Incurring & currying the Favour of the Majority wherein
Implementing an Objective of Divide & Reign
In their Quest to Cling on to Power and Remain

You be the Judge if Patriotism is for the Wise or the Fool
Or it be a Political Tool
Or it be a Tool of the Old School
Bringing Glory to a Person with
a Gilt Edged Moral
