

JAFFNA

A Brief Look at Lagoon Fishing & Life's Moments

Stefan. March 2024

Kayts causeway. A fisherman sets his nets and prawn traps for the night. His partner will harvest the catch the next morning, roll up the traps and hang them up on the fence (as seen above) for the evening work. Below left: The old style wicker prawn trap, the man is using the newer model nylon traps. Note the rosary beads hanging off his neck - he is most likely a Catholic.

Above: Lucrative Sea Cucumber fish 'farms'. The huts on stilts are also used to watch over the product below.

The causeway is also popular for evening walkers. Below left: A safety hung off the vehicle for a safe journey. Used charms are left on a tree as a part of the devout process. The cultural arrangement (right) was laid out to greet us into a ceremony

Below: A famous landmark and the law courts in the back ground. Below right: Mens fashion stores.
